Curriculum Policy

This policy applies to all pupils in the school, including in the EYFS.

The school follows its own wide-ranging academic curriculum, tailored to the needs of its pupils. All departments keep themselves up-to-date about its requirements and developments; much of what is taught draws upon the best practice of what is happening nationally and in other schools. As part of our responsibility to keep abreast of the national agenda, our subject leads are committed to reviewing any updates to National Curriculum and should we feel that content and skills are relevant and useful to our context, we will take account of them, being guided without being limited by the content.

The curriculum up to Y6 aims to marry together the strengths of the revised National Curriculum in the Primary Years with the entrance requirements of the selective senior schools to which pupils apply/ next phase of their education alongside the aims and ethos of the school.

The school will take all reasonably practicable measures to fulfill the requirements of any pupil's SEND or support guidelines, including pupils with a statement or EHC plan and inline with its obligations in regard to the SEND Code of Practice.

The curriculum is balanced and broadly based, and strongly promotes the spiritual, moral, social, cultural, mental and physical development of our pupils. It prepares our pupils well for the opportunities, responsibilities and experiences of life in British Society, including the provision for their economic well-being. It enables pupils to acquire skills in speaking, reading, writing, listening and numeracy. Where a pupil has English as an additional language and in the rare event that they need specialist teaching to develop appropriate fluency, parents will be guided and supported in finding such support outside school, as well as being advised of the support the school can provide.

The school provides full time supervised education for pupils between the ages of 3-11-. Up to the age of 5, pupils follow a curriculum which meets the learning, development and assessment requirements of the Early Years Foundation Stage (EYFS), further details of which can be found in separate EYFS documentation.

Throughout the school, the curriculum provides pupils with learning opportunities for developing strong core and cognitive skills; mathematical, scientific, technological, human and social, physical and aesthetic and creative education, as well as linguistic and life skills appropriate for their ages and aptitudes. At each level it provides opportunities, responsibilities and experiences, in preparation for the next stage of their education and their adult lives. The school is committed, through its curriculum and extra-curricular pursuits, to helping pupils to understand how to stay safe, build positive and healthy relationships and promotes the welfare and safeguarding of children at all times.

Aims of the curriculum:

We believe that a successful curriculum should be broad and balanced and delivered in innovative ways to provide appropriate stretch and challenge to all our pupils, exciting and engaging them and giving them ownership in their learning. We believe that exceptional results should be a by-product of the education that we offer, not the exclusive focus. Pupils are encouraged to aim high and we aim to provide them with everything they need to succeed. It is our aim for each child in our school to develop the appropriate skills to develop fully their academic potential, as well as developing their personal and social values in preparation for life in British society. It offers a robust understanding of safeguarding

through the comprehensive PSHCEE, RSHE and e-safety programmes.

Objectives of the curriculum:

We are committed to providing an educational environment that challenges, nurtures, excites and involves every single pupil in the school through a curriculum which

- At each level prepares pupils for the opportunities, responsibilities and experiences of the next stage of their education and lives
- Challenges the individual academically and allows them to discover their own intellectual strengths in the pursuit of academic excellence and encourages a love of learning
- Encourages independent learning and critical thinking skills and provides opportunities for pupils to express their learning and understanding in different ways
- Is balanced and broadly based and encourages pupils to explore a breadth of academic, cultural, aesthetic, creative and sporting interests
- Is responsive, providing inclusivity and diversity and reflects our responsibility to ensure our pupils are equipped to understand the integral part that world and British history plays in shaping society today and the role that our pupils have in helping to continue this path of reform.
- Is flexible enough to respond to change and incorporates innovation as appropriate
- Enables pupils to acquire skills in speaking and listening, literacy and numeracy
- Uses technology effectively in supporting teaching and learning and gives pupils opportunity to present work in personalised ways.
- Provides opportunities for collaboration with other schools in the group to enhance learning
- Ensures pupils have an understanding of their own personal safety and that of others, including awareness of safeguarding
- Enables our pupils to work collaboratively and successfully develop broader needed to equip them for life.
- Encourages respect for other people, paying particular regard to the protected characteristics stated in the 2010 Equality Act (i.e. age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex and sexual orientation).
- Enables pupils to know themselves better and begin to understand how their strengths, weaknesses and interests relate to the world of work, providing impartial and non-stereotyped guidance and support to help pupils make informed choices in the selection of future subject choices and begin to consider their options for higher education, training and careers.
- To ensure that pupils develop an understanding of fundamental British Values and uphold these throughout the curriculum (school to signpost where further details can be found).

Curriculum

Within this section schools should add in any specific provision e.g. Forest School, Critical Thinking Frameworks, Particular Learning Approaches, Study Skills, Learning Habits etc (9)

Foundation Stage (Age 2 – 5 yrs)

Pupils have a broad programme of study, based on the revised EYFS Framework, statutory from Sept 2021, which focuses on the

- Three prime areas of learning most essential for children's readiness for future learning and healthy development; Communication and Language, Physical Development, and Personal Social and Emotional Development
- Four specific areas of learning which build on the prime areas; Literacy, Mathematics, Understanding the World and Expressive Arts and Design

Within these the EYFS setting works to ensure that

- Children develop the characteristics of effective learning including, Playing and Exploring, Active Learning, and Creating and Thinking Critically
- There is a balance of structured activities and child initiated play with opportunities for learning both indoors and outdoors. The curriculum includes music, French and physical education.

Key Stages One and Two

Pupils have a broad and balanced curriculum with plentiful opportunities for active and personalised learning, both independently and collaboratively. Pupils learn the following subjects:

- Academic - English, Mathematics, Science,
- Linguistic – French
- Human and Social - History, Geography, Religious education
- Aesthetic and creative education - Art, Music, Drama
- Life Skills – general studies, personal education and personal, social, health and citizenship education
- Critical thinking and Study Skills
- Physical – Individual and Team Sports, Gymnastics, Clubs
- Technological - Computing, Coding, Computational Thinking, Information Technology, digital literacy and Design and Technology
- Forest School

Equal Opportunities

The curriculum at Elmhurst School is designed to ensure equal opportunities for all learners, regardless of ability, gender, ethnicity, religion or disability. As a non-selective school, we operate a learning support procedure through our SEND Policy and a policy for gifted and talented pupils to ensure the needs of all learners are met.

Safeguarding:

Within our curriculum, we build in opportunities for our pupils to understand safeguarding issues which may affect them and to ensure they feel safe and supported at school. More broadly, our curriculum takes account of and promotes our pupils' mental and physical health and development in order to prevent any impairments that would affect the best possible outcomes for all our pupils. The inclusion of opportunities within lessons to address and promote positive relationships, health, mental well-being and resilience is adopted by all subject leads within the school when considering adaptations to schemes of work and by practitioners in their day to day practice as part of our broad and balanced curriculum offer. Our Pastoral lead and PSHEE lead oversees this.

Additionally, our PSHCEE curriculum affords opportunities to be responsive to arising issues, and E-safety awareness is taught throughout the curriculum and particularly within the Computing and IT curriculum. Relationship Education and Relationship and Sex Education (RSE) is provided as appropriate for the pupils' ages and stages of development and in line with statutory guidance effective September 2020 (and implemented from Summer 2021) The principles underpinning our PSHCEE curriculum development are with the aim of supporting our pupils to develop the skills they need to be happy, successful and productive members of society; to be able to respond positively to the increasing challenges they experience; to develop the knowledge and capability to take care of themselves and to know how and where to seek support if problems arise.

Central to this is our pupils' ability to believe that they can achieve goals, both academic and personal; to stick to tasks that will help them achieve those goals, even when the reward may be distant or uncertain;

and to recover from knocks and challenging periods in their lives. This is complemented by development of personal attributes including kindness, integrity, generosity, and honesty. Further details can be found in the **Relationships and Sex and Relationship Education (RSE) Policy**. Relationship and Relationship and Sex Education, are a mandatory part of the school curriculum from September 2020 (delayed until Summer 2021) and the school **has consulted with parents during the devising of its curriculum in these areas** ensuring that this programme complements, but does not duplicate content covered in other subjects in the curriculum (eg citizenship, science, computing and PE). ([Relationships Education, Relationships and Sex Education \(RSE\) and Health Education guidance 2019](#)) **Health Education (HE) is not mandatory for Independent Schools but recommendations within the guidance should be used to cross check against current PSHE practice and curriculum, which is mandatory.**

Pupil Progress and Assessment:

Regular formative assessment and discussions with pupils enables our pupils to have visibility over their learning and progress and colleagues work closely with each other to ensure that learning is triangulated and moderated throughout the year. Pupils are consulted about their progress informally by teachers through an ongoing process and more formally through half-termly Personalised Learning Plans, which contain targets in core subjects and have space for pupil and parental voice. They also have termly reports.

Standardised testing enables carried out each year enables benchmarking of pupils attainment and progress against national standards.

Data Collection: The purpose of collecting any data about a pupil/cohort in the school is to understand and use it to make informed and evidence based decisions about next steps and interventions that will lead to the best outcomes for those pupils and to then compare data sets to ensure these have had the desired impact, supporting in signposting what further action is needed. At Elmhurst, we complete this termly; so that teachers create actions from their analysis to maximise pupil learning and outcomes for the following term; this is quality assured internally by pupil progress meetings which are led by Heads of subject and overseen by SLT, and external quality assurance is provided by our central education committee through governance.

Assessment and GDPR: Individual pupils' assessment data is part of pupils' personal information. Care is taken with the collation, storage and analysis of data. While it is appropriate to share consolidated assessment information outside of school any individual data must be anonymised. **This is referenced also in the school's Assessment Policy.**

Pupil progress meetings, held termly, help to determine if pupils are reaching the required milestones in relation to their own ability and national and school indicators. Where pupils are not making adequate progress, they will be identified for close monitoring/ small group intervention or 1:1 intervention as appropriate. If it is determined that the children are still not making adequate progress they may be referred to the school's SENCo for further investigation into their needs. Where specific needs are identified and can be met with 'reasonable adjustment' by the school there will be no additional costs for support. Where it is deemed most appropriate for there to be intervention from an outside resource, the cost for these services will be the responsibility of the parent.

In EYFS, the school will assess according to the statutory Early Years Profile and the 2 Year olds progress check. Results of the Early Years Profile are provided to parents and **(Name)** Local Authority on request.

English as an Additional Language (EAL):

We maintain an EAL register, which is updated annually. **Across the school, there is a percentage of children for whom English is classed as an additional language, as defined by the DFE, though the**

majority would be considered to be fluent in English. Our annual cohort composition, determines what extra facilities and activities we will incorporate into our classrooms and environments.

We aim to provide opportunities for children to share their home language in learning as appropriate and ensure they have opportunity to share their heritage. We work to ensure that children have sufficient opportunities to learn and reach a good standard in English from EYFS through Year 6. Where a pupil has English as an additional language and in the rare event that they need specialist teaching to develop appropriate fluency, parents will be guided and supported in finding such support outside school, as well as being advised of the support the school can provide. Where needed we will also provide an interpreter to facilitate parent meetings and any opportunity that affords communication regarding a child's progress.

Secondary School Information and Provision

The school provides Year 6 pupils with a range of activities and experiences to aid with transition into Secondary School. The SLT holds meetings with Year 5 parents and Year 6 parents to give guidance over transition, based on academic potential, attainment, attitudes towards learning and excellence in other areas of the curriculum e.g. Music, Sport, Drama, Art, etc. The school will support the application for scholarships in these areas if it feels it can endorse them. Year 6 pupils attend an annual trip to Sutton Life Centre, where the pupils learn about public transport safety, peer-pressure, drug and alcohol awareness, knife crime, fire safety, domestic abuse, healthy eating, e-safety, e-bullying, and environmental care. Elmhurst School supports families who decide to send their children home from school by speaking to the pupils about transport safety. The school gives pupils prefect roles, and the opportunity to be a buddy to the youngest children, to instil responsibility and leadership. Year 6 undertake the English Speaking Board Junior Medallion exam, to prepare them for public speaking. The school provides pupils with 11+ practise through past papers, booster sessions in Maths and English, and mock interviews. Pupils go on a residential trip for a week to build confidence and undertake team-building activities. For many of them, it is the first time away from home. The school also gives information to Year 3 and 4 parents about the provision for 11+ ahead of Years 5 and 6.

Further Information: Further detailed information on the subjects taught in each year group can be found in the **Parents' Handbook**, which is available for download from the school website, or a copy may be requested from the school office.

Appendix 1: Exemplar of Curriculum Objectives for Elmhurst School for Boys

We believe that the key to successful learning starts with developing strong oracy, comprehension and written expression from an early age; therefore, we want our pupils to be immersed in a curriculum that is literature rich and centred around building core transferable skills that equip them in developing key knowledge and understanding of the world around them, whilst being meaningful and relevant to their everyday experiences by taking into account the diversity of backgrounds and beliefs.

Our interconnected approach to the curriculum means that where subjects are naturally able to be linked by a common theme, we teach these during the same term so that pupils can see the relevance between them, whilst maintaining discrete subject teaching; in this way, children will know what it means, for example, to be a scientist, geographer or historian. We want our pupils to be excited about their learning from the moment they begin a new theme or topic.

Maths is taught as a stand alone subject as it follows the Inspire Programme of Study, although application of skills to real life contexts will be practised by making links, where relevant, to other areas of the curriculum and our themes. Maths uses the C-P-A and Mastery approach.

Lessons are planned to provide a breadth and balance of learning through practical, investigative and written activities. By encouraging the children to apply their learning across different contexts we are able to extend their understanding and deepen the core skills.

Elmhurst School for Boys Curriculum					
Key Aspects of Learning	<u>Core Skills</u>	<u>Immersive and Experiential</u>	<u>Breadth of Curriculum</u>	<u>Characteristics</u>	<u>Information, Media and Technology</u>
	Collaboration Critical thinking Citizenship Character Creative Thinking Communication Resilience Leadership Adaptability Independence Reasoning	Rich text centred Inspiring Spaces Provides a purpose and context for learning Is relevant and significant Builds knowledge and skills systematically	English language Reading Comprehension Creative Writing Writing for a purpose Maths: inspire Programme & CPA Science Humanities The Arts Technology Language/culture PSHE RSE	Curiosity Self challenging, risk takers Reflective Imaginative	Communication (G suite and chromebooks) Computational thinking Computer science E safety
